

Session Program

1-3 Dec 2026

International Meeting on

Theoretical and Experimental Chemistry:

How to Design and Study
New Compounds with
Potential Application

International Meeting on Theoretical and Experimental Chemistry: How to Design and Study New Compounds with Potential Application

***Teaching Lecture: Including bulk solvation
contributions during excited-state
calculations - Prof. Denis Jacquemin (Nantes
Université, Département Chimie)***

Wrocław, Poland, WEBINAR (ONLINE CONFERENCE, FREE OF CHARGE, time zone: CET, UTC+1)
ul. F. Joliot-Curie 14 50-383 Wrocław, Poland

Tuesday 1 December

15:45

17:00

Teaching Lecture: Including bulk solvation contributions during excited-state calculations - Prof. Denis Jacquemin (Nantes Université, Département Chimie)

Session |

Location: Wrocław, Poland, WEBINAR (ONLINE CONFERENCE, FREE OF CHARGE, time zone: CET, UTC+1), ul. F. Joliot-Curie 14 50-383 Wrocław, Poland
